Appreciate it. Also spoke to Eric Bissonette, not knowing our POC was Steve.
Will reach out now.

Subject: WV American impacted by spill at Freedom Industries
Importance: High

Perhaps you have already heard about the spill of 4-methylcyclohexanemethanol and impacts to over 100,000 customers of WV American Water. State of emergency declaration by Governor and President Obama.

We have information from ATSDR and CDC, but very limited. Recommendations at this point are Do not use, and flush until no odor detected. American is continuing to test the raw and finished water.

I could use a contact for treatment information.

This message is very short due to my other ongoing efforts to investigate situation. We will share more later.
